SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing responsive UIs, RESTful APIs, and scalable backend systems. Strong in state management, component-based architecture, and modern JavaScript practices. Committed to clean, maintainable code and delivering high-performance, real-world solutions.

WORK EXPERIENCE

WEBERSINK IT ARCHITECTS (FULL STACK WEB DEVELOPMENT) JUN 2024 - Present

- Assisted in developing full-stack features using React.js and Node.js/Express.js (backend).
- Collaborated with the senior dev team to integrate MongoDB for real-time data storage and retrieval.
- Contributed to building RESTful APIs and tested endpoints using Postman.

WEBERSINK IT ARCHITECTS, NAGERCOIL (INTERNSHIP) SEP 2023 - MAY 2024

- Built a full-stack internal app using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented secure authentication with JWT and bcrypt.
- Collaborated using Git and GitHub for version control.

PROJECTS

1. Developed a MERN stack web app to manage service providers, including registration, profile updates, and role-based access. Integrated JWT authentication and MongoDB for secure, scalable data handling.
2. Currently working on Clinix Nova, a doctor appointment booking application focused on scheduling and patient management.

EDUCATION

Master of Computer Applications (MCA) Aug 2024 - Ongoing (Expected 2026)

Lord Jegannath College of Engineering (Anna University Affiliated)
